

WW2 Armed Forces Demo README

Thanks for downloading this asset!

Frequently asked questions and their answers will be added to the FAQ below, if you have a question that is not listed, want to provide any other feedback, or want to showcase anything you made using the asset, feel free to send me an email at jonahhessel@gmail.com

Frequently Asked Questions (FAQ):

Q: All models are completely purple, how do I fix this?

A: The materials in this asset pack were made for the Built-in Render Pipeline (BiRP), and you have probably added the pack to a project using the Universal Render Pipeline (URP). To upgrade the materials for use in URP, just select all of them and press *Edit* → *Rendering* → *Materials* → *Convert Selected Built-in Materials to URP*
